JUDGE BATTERTON APPOINTS LEGAL ADVISORY BOARD

In an effort to assist registrants in making out their questionnaires, and to expedite the work of the Bourbon County Draft Board, Judge George B. Batters, has appointed a legal advisory board, composed of members of the local bar, who will meet on specified dates at the court house for the purpose indicated.

The work will be carried on in the County Court room, and will be expedited as rapidly as possible. From 8:30 to 12:00 in the morning, and from 1:30 to 5:00 in the afternoon, the attorneys will be in the court room ready to transact business for the registrants. The dates and names of the attorneys who will do the work are as follows:

Friday, Sept. 20.—R. C. Talbott, E. M. Dickson, Denis Dundon and William Grannan.

Saturday, Sept. 21.—D. D. Cline, J. J. Williams, W. H. Whitley and George Batters.

Monday, Sept. 23.—E. M. Dickson, Denis Dundon, William Grannan and R. C. Talbott.

Tuesday, Sept. 24.—J. J. Williams, W. H. Whitley, George Batters and D. D. Cline.

Wednesday, Sept. 25.—Denis Dundon, William Grannan, R. C. Talbott and E. M. Dickson.

Thursday, Sept. 26.—W. H. Whitley, George Batters, D. D. Cline and J. J. Williams.

Friday, Sept. 27.—William Grannan, R. C. Talbott, E. M. Dickson and Denis Dundon.

Saturday, Sept. 28.—George Batters, D. D. Cline, J. J. Williams and W. H. Whitley.

Monday, Sept. 30.—R. C. Talbott, E. M. Dickson, Denis Dundon and William Grannan.

Tuesday, Oct. 1.—D. D. Cline, J. J. Williams, W. H. Whitley and Geo. Batters.

Wednesday, Oct. 2.—E. M. Dickson, Denis Dundon, William Grannan and R. C. Talbott.

Thursday, Oct. 3.—J. J. Williams, W. H. Whitley, George Batters and D. D. Cline.

Friday, Oct. 4.—Denis Dundon, William Grannan, R. C. Talbott and E. M. Dickson.

Saturday, Oct. 5.—W. H. Whitley, George Batters, D. D. Cline and J. J. Williams.

Judge Batters' official notice to each of the attorneys, as issued from the office of the Local Advisory Board, is as follows:

"Dear Sir:—This is to notify you that your services have been drafted by the United States Government for the purpose of assisting registrants to fill out their questionnaires, on the dates named on the slip attached hereto. The regulations provide that a place convenient to the Local Board shall be provided for this work, and the Local Board has designated the County Court room, in the Bourbon county court house, as the place wherein this work shall be done. Under directions from the Federal Government I have been requested to arrange dates for each lawyer, for his part of the work, and to notify them of said dates. You are hereby required to be there for work on the dates at which your name appears on the attached slip, from the hours of 8:30 to 12:00 in the morning, and from 1:30 to 5:00 in the afternoon. It is my duty to report anyone who fails to appear and work on the said dates, and no excuse will be accepted, except sickness, when accompanied by a physician's affidavit."

OVER THE TOP WITH THE 1918 WHEAT CROP.

"Now is the time to go over the top with next year's wheat crop," says a well-known wheat grower of this county. He says, "The yield of wheat at threshing time is largely determined before ever a seed sprouts. The land should be well plowed early, kept cultivated to conserve moisture and then the very best seed available planted. No diseased seed should ever be planted until properly treated with hot water or formaldehyde to kill smut and other diseases. Wheat must also be well fed. Therefore, haul out all the barn manure that is available. Since manure is low in phosphate acid, the plant food needed by the wheat plant to produce the grain, it is wise to use 200 to 300 pounds of acid phosphate to the acre if it can be secured. When no manure is used then apply a fertilizer analyzing 2 per cent. nitrogen and 8 to 10 per cent. phosphoric acid." (20-1f)

BANKERS STAND FIRM WITH PRESIDENT WILSON.

That the bankers of the country should stand behind President Wilson in his purpose to press the war to a conclusive peace was the sentiment expressed by members of the American Institute of Banking at the opening of the sixteenth annual convention of the organization at Denver, Colo., Tuesday. The keynote of the convention was sounded by R. S. Hecht, of New Orleans, president, in his annual address.

COMING ATTRACTIONS AT THE ALAMO AND PARIS GRAND

To-day, Friday, Sept. 20.—Charles Ray, in "A Nine O'Clock Town;" also episode Ave. of "Hands Up," featuring Ruth Roland and George Chesebrough.

To-morrow, Saturday, Sept. 21.—Mabel Normand, in "Peck's Bad Girl;" also Smiling Bill Parsons, in "Bill's Baby."

Monday, Sept. 23.—J. Warren Kerrigan, in "One Dollar Bid;" also Fox Sunshine Comedy, "A Tight Squeeze."

FOR THE FATHERLESS CHILDREN OF FRANCE.

The Bulletin of the Fatherless Children of France, which is the official organ of the executive committee of this work, in its August issue contains a list of the seventy committees that have been added to the organization since Jan. 1, of this year.

Paris, (Kentucky,) is among them, and interest in the work continues through the Chairman, Mrs. Arthur B. Hancock, who is desirous of adding more names to the list of those who have already adopted French orphans.

The Bulletin contains a number of bright letters from boys and girls who have been "adopted" by Americans, and also several pictures showing the little ones to be very attractive and interesting in appearance.

We quote the following paragraph from the Bulletin written by John Kendrick Bangs, a well-known American who is traveling in France:

"One of the things that impressed me most in France was American solicitude for the welfare of the little children there whose homes have been destroyed, whose fathers have either been killed or swallowed up by the prisons of Germany, and whose mothers have been so impoverished by war as to be unable to care for them. It is beautiful to see the spirit in which American agencies have hastened to their succor, but it is the sad fact that, generous as has been our response to the needs of these little ones overseas, their necessities are still far and away beyond any measures yet taken to relieve and hold them safe. Their condition is pitiable, for in addition to their suffering they cannot understand the why and wherefore of that condition, and on their woe is piled a heart-rending bewilderment as to why this soul-searing devastation should be visited upon them. Vast numbers of them have been taught that only good can come out of the blue above where Angels live, have had their faith in Heaven shattered by the, to them, all too obvious fact that death has rained down upon them out of once lovely skies; and I have seen some who were actually afraid to look up because it was from those upper reaches that the Hun sent the instruments of destruction that killed their parents and in many cases their own little playmates. Not a few of them have themselves been forever maimed by the engines of destruction in the hands of an invisible and cruel enemy. I have seen little boys with their legs and hands blown away either by shells or by innocent-looking objects they have picked up in the street. I have seen them with the dozens with peaked little faces betokening a long period of starvation, some of them covered with eczema because of the impoverishment of their blood as a result of underfeeding, many of them in a condition of general health that only the most careful nursing and tender 'loving' can transform into anything even remotely resembling strength. Their little minds are filled with a background of tragedy that has well-nigh obliterated the pictures of happier days, and their outlook is one that in the very nature of things is filled with uncertainty. Their capacity for play, their tendency to sing, their wish to laugh, have all been crowded out of them, and countless numbers of them feel themselves constantly face to face with that Thing In The Dark which has struck terror to the heart of many an imaginative child in days of peace."

"Their condition unrealized by the generous heart of America would constitute a German victory, for it is a part and parcel of the Hun campaign to destroy not only the France of today, but the France of to-morrow, to so terrorize where they cannot kill and maim that in a possible later onslaught there will be no gallant sons and daughters of France to frustrate their vile ambition; to so break the spirit of the children of France that in future conflicts there shall be no reserves in Spartan courage to interpose a wall of steeled hearts against their fell designs, such as they found in the men of Verdun. Our boys are fighting gallantly for present victory on the field of honor to-day. We, by coming to the aid of the fatherless children of France NOW, can do our bit as well on behalf of the victory of the future. We can lift these little children up out of Hell and enable them to look God in the face once more. We can place them once more in the land of the living and add to the security of our own little ones in the years to come by leading them up out of the Valley of Despair to the heights of renewed courage and faith in the right."

GEORGE BROWN MARTIN NOW SENATOR FROM KENTUCKY

At Washington, Tuesday, Vice-President Thomas R. Marshall administered the oath of office as a Senator of the United States Senate to George Brown Martin, of Catlettsburg, Ky., Kentucky's new Senator, appointed by Gov. A. O. Stanley to fill out the unexpired term of the late Senator Ollie M. James. He was escorted to the Vice President's rostrum by his colleague, Senator J. C. W. Beckham. Immediately after the ceremony Senator Martin was surrounded by the Kentucky delegation in Congress and members of the Senate and congratulated. Senator Martin, of Virginia, Democratic floor leader, was the first to chat with him at length.

UNITED WAR WORK CAMPAIGN SOON TO BEGIN.

Bourbon county, in the Thirteenth District of the Kentucky State organization which is to raise \$1,770,800, during the week of November 11th, as this State's portion of the nation-wide \$170,500,000 to be raised that week for army and navy welfare work will be called upon to contribute largely of her means if the campaign is to be a success.

At the big State conference held in Louisville, Friday, Sept. 13th, the State organization was announced. The State has been divided into 20 districts and each district has its own organization. At district conferences to be held soon the county organizations will be perfected.

This is to be known at the United War Work Campaign, and the seven welfare agencies endorsed by the War Department, are to engage in it. They are Y. M. C. A., Y. W. C. A., National Catholic War Council, Jewish Welfare Board, American Library Association, War Camp Community Service and the Salvation Army. The apportionment, adopted by the War Department and based upon the amount of work being done by each organization, is as follows: Y. M. C. A., \$100,000,000; Y. W. C. A., \$15,000,000; National Catholic War Council, \$30,000,000; Jewish Welfare Board, \$3,500,000; American Library Association, \$3,500,000; War Camp Community Service, \$15,000,000; Salvation Army, \$3,500,000. The door of every organization is opened to the men everywhere.

"Salute and Go To It"—It's a War Measure, has been adopted as Kentucky's slogan for the campaign. Get ready for the command, "Attention!"

The district organization follows: District No. 13—Quota, \$72,937. Boys' objective, \$5,670. Chairman, H. A. Power, Paris; Campaign Director, Z. L. NEW RED CROSS HOME SERVICE CLASS IN PROSPECT.

To equip more workers with fundamentals for Red Cross Home Service, another series of Home Service Institutes, or "Plattsburgs," have been planned by the Department of Civilian Relief, Lake Division, American Red Cross.

Need for the new series of institutes may be seen in a recent report of this department in which it was shown that the number of Ohio, Indiana and Kentucky workers had grown to more than 13,000 a month. This number, it is pointed out, will greatly increase as more and more men are selected for military service.

Institutes are to be opened at Columbus, Sept. 23; at Cleveland, Oct. 15, and at Cincinnati, Nov. 5. The first of the new series was opened at Indianapolis yesterday. All are made possible by the joint co-operation of universities and social agencies, in the cities in which they are held, with the Red Cross.

Each course consumes six weeks and includes twenty-four lectures with collateral reading and weekly conferences, together with 150 hours of field work supervised by social agencies. Enrollment is limited, varying from twenty to twenty-five pupils to each institute.

Facts about War Risk Insurance, about Allotments and Allowances, about conducting an information service, about industrial problems due to the pressure of the war, about juvenile delinquency, about home dietetics—these are among the important subjects taught at these institutes as part of the American Red Cross pledge to sustain the soldiers morale in camps and overseas by helping their families at home.

COURT UPHOLDS FUEL ADMINISTRATION.

The legality of the U. S. Fuel Administration organization and the validity of the price-fixing proclamation was upheld in the Federal Court at Knoxville, Tenn., according to word received here.

A demurrer to indictments against coal operators was overruled and judgment given in favor of the government employees.

SUIT TO BE FILED AGAINST LIGHT COMPANY.

Acting under instructions from Mayor E. B. January and the Board of Council of Paris, following a conference held at the office of Mayor January, Tuesday afternoon, City Attorney Denis Dundon is preparing papers in a suit to be filed by the city against the Paris Gas & Electric Company.

The suit will be brought for the purpose of recovering damages in the sum of approximately \$15,000, alleged to be due the city for excess payments for street lighting in Paris during the past five years.

IN THE SERVICE OF THEIR COUNTRY.

Mrs. T. D. Berkeley, of near Paris, has received a message announcing the safe arrival overseas of her brother, Mr. Dillon Price, who was on the transport Persie, which was torpedoed some time ago.

Several interesting letters from soldiers are printed in this issue of THE NEWS, on page three. These letters are of general interest, showing, as they do, the many sides of camp life and happenings here and abroad.

Mr. M. L. Crain, who has been the Paris representative for some months of a large life insurance company, has gone to Winchester, where he has entered the Students' Army Training Corps now being formed at the Kentucky Wesleyan College. Similar organizations are being formed at other educational institutions in Central Kentucky.

Mr. Landrum Payne, who has been stationed at Rochester, New York, as a member of the Aviation Corps of the U. S. Army, has arrived on a furlough visit to his parents, Mr. and Mrs. J. Walter Payne, in this city. Mr. Payne is taking a special course of study in aerial photography in kodak division of the service in the Rochester camp.

Mrs. Carrie F. Stone, of Paris, received a letter from her son, Private George (Tommy) Frakes, stating that he had been transferred from Ft. Benj. Harrison, Ind., to Camp Mills, Long Island, New York, and that it meant he would soon be en route overseas. Young Frakes was transferred sometime ago from Camp Zachary Taylor to Ft. Benj. Harrison.

Writing from Monticello, Arkansas, to renew his subscription to THE NEWS, Mr. John F. Barbee, formerly of Paris, now operating the Barbee Stock Farm, near Monticello, says:

"The many Bourbon friends of my son, Clarence, will be glad to know that he is in Uncle Sam's service. He is an officer in the 46th Field Artillery, stationed temporarily near Little Rock."

Relatives in Paris have received information to the effect that Sergt. Stanley Hosler had died in France from wounds received in action in battle on July 29. He was with an Indiana regiment. Sergt. Hosler was a brother of Dr. Ernest Hosler, of Lexington, who married Miss Emilee Frakes, daughter of Mrs. Carrie F. Stone, of Paris, and had an enviable record as a soldier.

Mrs. C. F. Koerner, of Colon, Panama, formerly Mrs. Bruce Adair, who is a guest of her mother, Mrs. Nathan Bayless, Jr., near this city, received a cablegram from her husband, Mr. C. F. Koerner, at Panama, stating that he had received his commission as Captain in the U. S. army service, and had been ordered to report at Newport News, Va., for service in the Quartermaster's department. Capt. Koerner has been Fire Chief of the Canal Zone for a number of years, and has been stationed at Colon, Panama.

Lieut. J. W. Waller, a brother of Mrs. Henry Judy, of near Paris, and of Miss Dorcas Ussery, of this city, writes that he has been transferred from his late post at Ft. Benj. Harrison, Ind., to the army embarkation camp at Camp Mills, near Long Island, New York. Before being transferred to Ft. Benj. Harrison he had been stationed at Ft. Oglethorpe, Ga., as a member of the United States Engineering Corps. Previous to entering the service he was engaged in civil engineering for a large firm in Tennessee.

According to advices received here by relatives, a majority of the nurses in the Dr. Barrow Base Hospital Unit No. 40, have been sent to Paignton, South Devonshire, England. They have been sent there only temporarily, awaiting the completion of the hospital, which they are to occupy. A hospital of 3,000 beds is being constructed for the Unit at Salisbury Court, Hants, England, and the members of the Unit, in which are a number of Paris and Bourbon county boys have been stationed there since their arrival overseas.

Mrs. J. J. Veatch, of Paris, has received a copy of the Glendale, Calif., Evening News, containing an interesting letter written by her nephew, Mr. Murray Durham, to his parents, Mr. and Mrs. James W. Durham. Young Durham was first sent to Camp Lewis, Washington, where he was a member of Co. B, of the Military Police. From there he was sent overseas with a large detachment of Pacific Coast soldiers. The Evening News, commenting editorially on young Durham's letter pronounced it the finest they had ever had from any of the California boys in the service.

THE NEWS has received from Corp. John M. Stuart, who is stationed at the Aberdeen Proving Grounds, in Maryland, a copy of "Rapid Fire," a publication issued weekly by the enlisted men at the Proving Grounds. The publication is in magazine form, and is a most unique one. One of the cartoons is very applicable to a situation that

GERMAN ALIEN FEMALES MUST NOTIFY CHANGE OF RESIDENCE

Chief of Police Fred Link is in receipt of the following letter from United States Marshal Henry M. Cox, of Covington, regarding German alien females changing their places of residence. The letter follows:

"A German alien woman changing her place of residence to another place within the same registration district shall immediately report such change to the registration officer of the registration district and present to such registration officer her registration card for the purpose of having endorsed thereon by such registration officer the change of residence. A German alien female who desires to change her place of residence to a place of residence within another registration district must obtain a permit. Such German alien female must present herself to the registration officer of the district in which she then resides and make application for the permit on a form supplied by the registration officer for the purpose of having the permit of change of residence, if granted, endorsed upon her registration card. If the registration officer denies the application there may be an appeal under certain circumstances set forth in Article XIII, paragraph 3, of the General Regulations, to the United States Marshal of the judicial district for final action.

"A change of residence in violation of the Regulations subjects an alien enemy, among other penalties, to arrest and detention for the period of the war.

"The registration officer who acted in the registration will continue to act as registration officer for the purpose stated in respect to permits for change of residence."

AGED WOMAN BREAKS HIP.

Miss Sallie Neal, aged eighty, one of the oldest residents of Paris, is confined to her bed at the home of Mrs. Ruby L. Arnsperger, on High street, with a broken hip.

Tuesday afternoon Miss Neal went to the home of Mary Ann Arnold, colored, to engage her for some work she wished done. After disposing of the business in hand, she turned to leave the porch, but missed her footing on the top step, and fell to the bottom. In the tumble her hip was broken. Several people who witnessed the accident rushed to her aid. Among them was Dr. Francis P. Campbell, who took Miss Neal in his auto to the home of Mrs. Arnsperger, at the corner of High and Ninth streets, where physicians attended her injuries.

Owing to her advanced age Miss Neal's condition is very serious. She was resting easy yesterday, but in a critical condition.

"BOOTLEGGERS" MAKE ESCAPE.

From the county rock quarry to liberty was but a few steps for Jacob Brown and Robert Wood, colored convicted bootleggers, serving a hard labor sentence of thirty days.

The men had been sent to work in the quarry breaking rock, and seemed willing enough to find employment. But their wits were working, and taking advantage of a favorable moment afforded by the temporary absence of a guard, they made their escape. Police and county authorities were promptly notified and messages sent to all the surrounding towns, but so far the men have not been apprehended.

has developed in many army camps, namely the difficulty of soldiers getting their mail, showing a most deplorable lack of system. The magazine is filled from first to last page with news of nature interesting to the soldiers in the camp and their friends.

All railway employees in the classes declared by the railroad administration to be essential to proper operation of the roads, were instructed Wednesday by Director General McAdoo to claim deferred classification as a patriotic duty.

Five Bourbon county selects left yesterday for Camp Buell, at Lexington, where they will be given a special course of training at University of Kentucky for army positions at the front or behind the lines overseas. Those who left were S. R. Hudnall, Thos. Fitzgerald, Tilford Burnett, Jr., Charles Columbus Tate and Holmes Smart. Hudnall was in Class Four, but petitioned the Draft Board to advance him to Class One, so that he might get into active service sooner. His request was granted. Hudnall is an expert machinist and auto mechanic. The others are also good mechanics, and all will make good soldiers, after a course of intensive training.

Public and Private Book-Keeping.

Just what the Government will do with the telephone companies now that they have acquired public control, has not developed. The Saturday Evening Post comments that the recent act of Congress which put them under government operation was a snap judgment taken under the exigencies of war. The Post is in doubt as to whether the public administration can achieve the "good faith" which "requires the Government to manage them without prejudice to the plan of private ownership and operation—to which they should be restored the moment the war ends." Such a result will have to pay due respect to systems of accounting. We now find that the American Telephone and Telegraph Company is running a business in which they extend credit to millions of citizens, and the results are highly satisfactory. Whether the Post-office Department that does a strictly cash business and never is able to give more than a general guess as to the cost of operation, profit or loss, in any region of the country, will be able to make material changes in telephone operation throughout the nation, and at the same time tell definitely, as has been done under private ownership, just what the balance sheet shows in every unit of operation, remains to be seen.

The Interstate Commerce Commission prescribes explicit methods of accounting for the railroads and other institutions coming under its direction. Whether the Government will be able to keep books that will show every detail of operation in as clear a manner as has been done under private control, while it is "scrambling" and unscrubbing railroads and wire lines, is bound to become an interesting feature of forthcoming developments.

Giving New Employee a Welcome.

When you go into a country or a strange place you are grateful to the man who extends to you the hand of fellowship, to the one who makes you feel at home.

Remember the new employees on the job. They are strangers within our gates. Especially at this time when we are increasing our force are we afforded an opportunity of showing new employees that we are interested in them and that we are anxious for them to be satisfied. A little effort on your part can make the newcomers feel at home and will show them the feeling of co-operation you have helped to build up. You can do more in five minutes to establish the right spirit while their impressions are forming than you can in many days after they have formed their opinions of you and your company.

In case the newcomers are foreigners, there is even greater obligation to treat them as guests, and make them feel welcome.

It is the privilege of every American at this time to make the strangers from other lands feel that we appreciate their help in winning this war.

Treat them with the same courtesy and kindness that you would desire if you were a stranger in a foreign country.

Your personal contact with foreign workers can help to unite all races in America to win this war.

CONVENTION OF CHRISTIAN CHURCHES AT RICHMOND

The eighty-sixth annual convention of the Churches of Christ in Kentucky will be held in the First Christian Church, at Richmond, Sept. 30 to Oct. 3.

The opening meeting, Monday morning, will be a Christian Education session. The principal speakers will be: President R. H. Crossfield and Professors DeWeese, Bower, Fortune, Brown and Snoddy, all of Transylvania University.

On Tuesday, Oct. 1, the sessions of the Christian Woman's Board of Missions will be held, presided over by Mrs. John Gay, State President, with a number of addresses by distinguished women, and the reports of work accomplished by the women, young women and children during the missionary year.

The Kentucky Christian Missionary Convention will occupy Wednesday, and the State Bible School Association will be held on Thursday. At the afternoon session of that day the Widows' and Orphans' Home of Louisville will be represented by J. S. Hilton and a number of children from the Home.

The Convention will close Thursday evening, Oct. 3, with an address by Rev. T. M. Tindler, pastor of the North Middletown church, on the subject, "God Gives and Wants the Best."

Mr. A. L. Boatright, of Paris, will lead the singing, and a number of persons from Paris and Bourbon County are planning to attend.

This Convention was held in Paris fifteen years ago.

NEW QUOTAS FOR ARMY CAMPS IN OCTOBER.

WASHINGTON, Sept. 19.—Draft calls announced Monday by Provost Marshal General Crowder will send 181,838 men qualified for general military service to army camps before October 16. All states have quotas to fill. Of the total 142,000 will be white registrants, who will be between October 7 and 11. The remainder will be negroes who will move in two groups, 20,015 entraining between September 25 and 27 and 10,752 on October 16.

Men who registered last Thursday may be needed in a few districts to fill the new quotas, it was said at the Provost Marshal General's office but in most localities sufficient men remain in Class 1 from the registrants of last June 5 and August 24 to meet the requirements.

States from which the white registrants were called, with their number and the camps to which they will go, include the following:

Ohio—1081, Camp McClellan, Ala., 8,000 Camp Sherman, Ohio.

Kentucky—7,843, Camp Sevier, S. C.

Indiana—5,000, Camp Taylor, Ky. Camp Sherman will also receive 1,000 negro registrants from Tennessee.

McCOMBS OIL COMPANY TO RE-FINE ON LARGE SCALE

The success which has marked the progress of the McCombs Oil Company in the producing branch of the oil business has warranted the management in entering the refining field of the oil industry on a large scale. There were many reasons that influenced the board of directors in arriving at a decision to enter this particular branch of business, among them being the conceded large profits of the refining business, the stabilization of the company's earnings and the lack of competition from other firms in the Kentucky field.

In order properly to carry on the refining business the company purchased from the Consolidated Oil Refining Company their plant No. 2, at East St. Louis, Ill., which is situated in the heart of the rich manufacturing district of East St. Louis, about one-half mile from the Mississippi River. With the plant proper was acquired two acres of ground located between the factory and the National Chemical Company and the Indianapolis Refining Company.

The management plans to put the refinery in immediate operation. As the plant stands it is ready for the crude oil, even to having a supply of coal on hand for the boilers. To make available the crude oil that the company is producing from its properties in Wolfe County it is only needed to lay a three-inch pipe line a distance of three miles to the main line of the Louisville and Nashville Railroad at Torrent, Ky. It will not be necessary to install any pumps as the oil will flow by gravity from the Adams and Spencer leases to a storage tank that will be located at the loading track on the railroad siding.

Work of laying this line will be begun immediately and will in all probability be completed in thirty days. No delay will be occasioned by lack of facilities for transportation of the oil to the refinery as the thirty new tank cars that have been purchased are already constructed and about ready for delivery. The present plan for operation of the plant will be begun immediately and pushed as rapidly as possible to completion.

God in Nature.

More than ever we need to appreciate the works of God as shown in the material world. A blue sky, flickering shadows on the grass, the grace in the flight of a bird—these things should give us the sense that God is still in the world. Let us listen to the voices of the brook. Let us watch the waves of the lake. We may or may not know what is on the farther, unseen shore, but we can build mental pictures of great beauty. There are thousands of beautiful pictures all around us if we have eyes to see and soul to appreciate them.

Portugal was formerly known as Lusitania. The present name is derived from Port Callo, the ancient name of the town known as Oporto.

The world is filled with fools. But the man who admits that he is a fool isn't one of them.

BOND VALUES WILL INCREASE.

Money is the cheapest thing in America to-day.

It takes more money right now than in the last twenty years to buy most of the things that make for comfort and convenience in life.

Your cost of living has more than doubled in the last four years. Prices of nearly any article you may name have increased anywhere from 50 to 200 per cent. In many instances they have jumped 500 per cent.

Your dollar to-day is worth correspondingly less than it was at the beginning of the world war.

This is an all-important consideration in the purchase of a Liberty Bond.

For your bond, bought to-day with a dollar worth less than fifty cents, will be redeemable in dollars worth approximately their face value.

Present conditions will not continue forever. Values will eventually right themselves.

And the bond holder will be the winner.

It is good business to buy a staple article when it is cheap and sell it when the price goes up. Most fortunes have been made in that way.

And, in effect, that is what you are doing when you buy a \$100 bond with dollars worth less than fifty cents each.

It has been a long time since the average farmer could buy a government bond for the price of an acre of wheat, or the average workman with his earnings for ten day's work.

But it's possible now.

And the wise fellow will do it.

BOYS TO TAKE PART IN WAR WORK CAMPAIGN

The boys of Kentucky are to be given prominence in the great National United War Work Campaign to be conducted the week of November 11th, to raise \$175,500,000 for welfare work in the American Army and Navy the coming year.

Their quota is now being considered and will be announced shortly. Suffice it to say that the figure will be one marking a goal to which the boys of the State may well devote their best energies.

When the "Big Brothers" of the army at the front see the great work being done for them by the "Little Brothers" of the army at home, they will realize that the boys of Kentucky at home and abroad are all on the firing line.

The Boys' Campaign will be marked by an enthusiasm seldom witnessed in the State. Detailed plans were considered at a conference held in connection with the State Campaign at the Seelbach Hotel in Louisville, Friday, attended by representatives from all parts of the State.

DO IT NOW.

Paris People Should Not Wait Until It Is Too Late.

The appalling death-rate from kidney disease is due largely to the fact that the little kidney troubles are usually neglected until they become serious. The slight symptoms often give place to chronic disorders and the sufferer may slip gradually into some serious form of kidney complaint.

If you suffer from backache, headaches, dizzy spells; if the kidney secretions are irregular of passage and unnatural, do not delay. Help the kidneys at once.

Doan's Kidney Pills are especially for kidney disorders—they act where others fail. Over one hundred thousand people have recommended them. Here is a Paris case:

Mrs. Chas. McCord, South Pleasant street, says: "I have used Doan's Kidney Pills at different times, getting them from Oberdorfer's Drug Store and I have found them a splendid medicine. Whenever my kidneys have acted irregularly or my back has been weak or lame, I have found a box or so of Doan's Kidney Pills has been sufficient to cure me of the attack."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McCord had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv)

FURTHER REGULATION OF THE NEWSPAPER BUSINESS

Additional orders affecting the publishing of newspapers were announced recently by Chairman Baruch, of the War Industries Board, to bring about a further saving of print paper.

The board rules that publishers shall not use premiums, contests, or similar means to stimulate circulation, that no holiday, industrial, or special issues shall be published and that papers shall not be issued at retail for less than the published prices.

Legitimate methods of stimulating circulation are held to be billboard and wall poster advertising, buying space in contemporary papers announcing special features, making announcements in Sunday or daily editions of special features to come, and canvassing without premiums.

FOR WEAK STOMACH.

The great relief afforded by Chamberlain's Tablets in a multitude of cases has fully proven the great value of this preparation for a weak stomach and impaired digestion. In many cases this relief has become permanent and the sufferers have been completely restored to health.

A-I-M FOR YOUR SICK STOMACH

Acid Iron Mineral Will Give Your Stomach Just the Help it Needs to Get Well—It's Guaranteed

Read what W. H. Bowen, of Belhaven, N. C., says about Acid Iron Mineral, and what it did for his stomach: "I have been a sufferer from catarrh of the stomach and indigestion of the bowels all my life, and until I found Acid Iron Mineral I could get no relief from doctors, but I have taken A-I-M for the last ten years, and feel all right now. In fact, if I did not have this best medicine in the world I don't know what I would do. I can recommend it for the above diseases, and also for many others."

Acid Iron Mineral is a product of nature, and does not contain any alcohol or any other injurious drugs—it is the world's greatest remedy for purifying the blood, stomach diseases, rheumatism, female troubles, and external diseases, as well as catarrh in all its forms. A-I-M also helps piles and constipation if taken according to directions.

Acid Iron Mineral is absolutely guaranteed to give satisfaction, or your money refunded—get a bottle to-day at Brooks & Snapp's—you take no risk. Not a patent medicine. If not obtainable in your neighborhood, send 50c or \$1.00 to the Ferrodine Corp., Roanoke, Va., and it will be sent to you postage paid.

Do You Need Glasses?

Let us make a thorough, scientific examination of your eyes, based on ethical grounds, not to recommend glasses unless you need them. Ask yourself these questions: "Do I have headaches, nervous spells, drawn, tired eyes? Does type sometimes blur? Do I see spots before my eyes?" Answer fairly and squarely, for your own good, for over-strain repeatedly day by day will break down the delicate nerves and muscles of the eyes and irreparable injury may result. Our years of experience insure accurate results.

This House is Sunburnt

Buildings suffer from sunburn as much as people do, when they're not protected from Old Sol's grilling rays.

Few could afford enough cold-cream to soothe a blistered barn, but we can afford a coat or two of paint to keep the barn from blistering.

Good paint gives the sun's rays no chance to warp and crack the wood, so that rain may drive in and start decay.

Dutch Boy Anchor Brand White-Lead

mixed with pure linseed oil, is a paint which is proof against all weather, and maintains a handsome, smooth appearance. Any color may be had.

Drop in and let us show you our complete line of high-grade paints, oils, varnishes, and brushes. We guarantee the worth of all our paint materials, and our prices are right.

Fine Bluegrass Farm on Court Day

The undersigned will rent at public outcry on Court Day

Monday, Oct. 7, 1918,

at 11 o'clock at the Court House door in Paris, Ky., the fine Bluegrass farm known as the Sue K. Moran place, which is located on the Peacock Pike, about 3 1/2 miles from Paris.

This is one of the best farms in Bourbon county, and contains 300 acres. On the place is a substantial house containing 6 rooms, a good tobacco barn that will house 15 acres of tobacco, plenty of tobacco sticks, all necessary outbuildings, never failing water.

Forty-five acres now in corn, 30 acres in wheat stubble and 15 acres in meadow, may all be used for corn—making 90 acres in all for corn. Forty acres to go in wheat, 10 acres of virgin soil to go in tobacco, 160 acres in grass.

Prospective renters may inspect the place at any time.

LETTERS FROM BOURBON COUNTY SOLDIERS AND SAILORS

Mr. Ira D. Thompson, Jr., lately of Paris, who is at the Government rifle range at Annapolis Naval Academy, writes a short letter to his mother, in which he says in part: "Dearest Mother: I received your letter yesterday (September 12) and was certainly very glad to hear from you. . . . You did not send the candy, but I want you to be sure to send me a Red Cross sweater. Get a blue one if possible. If you make it yourself make it good and heavy, and make a nice neck in it. . . . You asked me about my promotion. It is not an office, but I am an assistant on the five hundred yard range, and I stand an excellent chance for getting an office some time soon. I am an expert rifleman now, instead of a sharpshooter, so I am climbing little by little, all the time. The expert is the highest course you can make in the navy, so I am going to try for an army expert. . . . Don't forget about the sweater, and if you make it yourself be sure to make it a blue one. If that is not possible, make it gray, but I prefer it blue. . . . Well, I must get busy, so will close. Hope to hear from you again very soon."

Under date of August 18, Mr. Baldwin Woods, son of Mrs. Jack Woods, of Paris, now in England as a member of the Dr. Barrow Base Hospital Unit No. 40, writes, in part, to his mother, as follows: "I guess you are wondering what part of England we are in. We are in the southern part. We are about 75 miles from the firing lines. The only firing we can hear is the firing on the water. There was a hospital ship sunk last week. I guess you have all heard about it. . . . The Americans are driving the Germans every day and capturing them by the thousands. They are depending on us to putting a stop to this war. The way things look up here it will be over this time next year. . . . I wish you could see this hospital we are in. It is a big beautiful manor surrounded by over two hundred acres of land. We haven't received any patients yet, as we are building on it and equipping it. . . . The landscape is beautiful and the roads are simply grand. Big cedar trees overhang the roads, and at night you can't see your hand before you. The gardens are also beautiful. They are something like a big flower house, and have big ripe peaches and grapes on the inside. . . . The Pathé Company took moving pictures of the Hospital and the Red Cross. If I can get a magazine that has the pictures in it I will send it to you. "You wouldn't imagine how much a fellow thinks of his old home when he is over here. I tell you that they did think of home when they were at the 'rest camp.' We had to sleep on the floor most of the time, and it was raining, too, most of the time. We would often wake up in the night with our bones aching and our clothes wet. But it came out all right in the end. . . . The trip over the ocean came near getting me. We slept in hammocks. One night I fell out of mine and thought I had broken every bone in my body, but guess I didn't. One night a submarine scare came up, and when it was reported that a sub was close to us one of the Paris boys (name withheld) got so scared that he buckled three life belts around him and crawled into one of the big air funnels, where he remained four or five days. We thought that he had fallen overboard. "On account of being written on both sides of thin paper with heavy ink which soaked through and made it illegible, several pages of the letter could not be made out. And the newspaper man had other things to do than try to decipher it in a few moments."

Writing from England under date of August 14, Earl Blake, of Winchester, writes to relatives here as follows:

"Dear Folks: We arrived here on the fourth of August, after a very nice trip across. It took us twelve days to make the trip, and there was surely a nice sick bunch of boys on that ship on the way across. I did not get sick, but managed to keep feeling pretty well all the way across. But it was a tiresome old trip. For two days the sea was pretty rough, at times the wall of water seemed as if it would sweep over the top of the ship. . . . I don't like the place where we are camped very much, but guess I will have to stand it. I am still with the same bunch. We get permission to go out of the camp every night and we have a good time. There is a fine bunch of girls here. They are all engaged in doing Government work, nearly all of them taking the places of men who are in the service. "When I was in New York I saw Stanley Ogden. He said he was liking the service all right. I guess Mike Blake is over here somewhere. I may get a chance to see him. We are in about four hours ride of France, but don't know exactly when we are going over there. There is a big bunch of boys going to London today, and I will get to go to-morrow. "I am still in the culinary department and like it very much. We get plenty to eat, but we don't have anything fancy like we did at Camp Custer. We get mutton every day and it goes pretty good, I thank you. When we first got here I could hardly stand up, but now I feel as strong as I ever did in my life. I will be back soon to see all you again, as we don't think this war is going to last much longer. . . . Must get to work now, so with love to all, I am
"EARL BLAKE,
"Cook, Co. E., 339th Infantry, American Expeditionary Forces."

The following letter, written from overseas by Private Chas. R. Bland, a Bourbon county colored soldier, under date of August 18, was received here by Rev. T. L. Ferguson, pastor of the colored Methodist church:

"Somewhere in France,
"Sunday, Aug. 18.
"Rev. Ferguson:—Your letter was received a few days ago, and I will say that each and every boy from Bourbon county was more than delighted to hear from you and the members of your congregation, as your letter seemed to add so much pleasure to our lives while in France. "We have just returned from our evening service, conducted by our Chaplain, Rev. John Smith. Our Chaplain at all times is our chief adviser, and is always ready to lend us a helping hand. I will say that the Bourbon county boys can always be found on each Sunday at the Y. M. C. A., doing their part in serving Our Heavenly Father. To-night we sang, 'God Will Take Care Of Your Folks' and 'Jesus, Lover Of My Soul,' and you have no idea of how these songs have softened the hearts of many of our soldier boys who have made a change for the right. "We have been informed of the service flag at St. Paul's church, and we are glad to learn that you are all doing great work in aiding us in winning the great war. Each one of us smiles deep down in his heart when we learn that we are being remembered with your prayers and the prayers of your congregation, and we pray that you will continue praying for us. May God be with you and your congregation until we meet again. This is written to you for the Bourbon county selects by your friend and their friend.
"PVT. CHAS. R. BLAND,
"Co. A., 515th Engrs. Serv. Bn., A. P. O., 713, American Expdtry Forces."

GET OUT THE MELTING POT

In the olden days when our forefathers were fighting the Indians for a foothold for freedom upon America's shores the attacks were frequently as bloodthirsty as those that have lately featured the battles of the Marne.

Then, when the bullet supply began running short, the women would get out the melting pot and the molds and make another batch. And they would keep their men at the portholes always supplied. For, unless the red-skins were beaten off, worse than death would be their portion, as they well knew.

With the ruthless, cruel German hordes battering at the frontiers of freedom to-day the same conditions threaten.

One again the men are at the portholes—in the trenches—beating off the ultra-modern savages who would enslave the world. If they fail in this, life may be worth living, but we doubt it.

We who are left behind must furnish the bullets.

So get out the melting pot, which in this day is the savings account. Throw in the lead, which is the products of the work of your hands and brain.

And pass on the bullets which your dollars will buy the Yanks.

Let the Fourth Liberty Loan campaign be your workshop.

Casao is the most important crop of Puerto Plata, and, after sugar, the leading export of the Dominican republic.

It doesn't make any difference how rich a man is, his wife can always find something in him to find fault with.

9,000 NURSES NEEDED

More than 9,000 additional nurses will be required to meet the needs of the army alone between now and Jan. 1, Brig. Gen. Charles Richard, acting surgeon general, announced in denying the report that nursing needs of the army had been met.

In less than a year, he said, 50,000 nurses will be required to meet the demand.

Grand Opening of Our New and Enlarged SECOND-FLOOR DEPARTMENT

FEATURING NEW FALL APPAREL FOR

Women and Misses,
Juniors, Children and Infants

TUESDAY AND WEDNESDAY,
SEPTEMBER 17th AND 18th

This department has been undergoing reconstruction for the last six weeks. But now it is completed. The fixture builders have added the finishing touches to it and it is at last ready for business.

The changes that have been made in it allow us a large amount of floor space, much more, in fact, than we had at our disposal before these changes were consummated. So we are able to display much larger lines of New Fall Apparel and present you with more varied assortments for choice.

We would like to have you see this new and enlarged department, and have you tell us what you think of it; and we here extend a cordial invitation to you to pay it a visit at your leisure.

No attempt will be made to induce you to purchase. But if, however, you see fit to do so of your own accord you will find the prices the apparel you like is quoting will make the immediate purchasing of it well worth your while.

Our Doors Will Be Open at Nine.

MAJOR BLANEY, WELL-KNOWN HERE, DECORATED FOR BRAVERY

Maj. Lindsay Blaney, formerly of Danville, and well-known in Paris, has been named Military Attache of the Commission for French-American Affairs, according to reports received here recently. He has been decorated with the Croix de Guerre for dash, courage and coolness in action, and has been made "officer of the first-class" of the Chasseurs Alpins, the "Blue Devils." He received the appointment as Military Attache at the personal instigation of Commissioner Tardieu.

Major Blaney married Miss Cora South, formerly of Frankfort, who has been a frequent visitor in Paris, as has Maj. Blaney. He graduated at Centre College, in Danville, where he at one time occupied the chair of Modern Languages. He is a native of Houston, Texas, and fought with the British before Ypres, with a noted French division near Amiens, and was with the staff of the United States army at Chateau-Thierry. Mrs. Blaney, as a young woman, was often a guest at the home of Mr. and Mrs. J. W. Ferguson, Mr. and Mrs. John T. Hinton, and many other families in this city during the social seasons and at the old Bourbon Fair.

SCHOOL NOTES.

The Little Rock School began Monday with an enrollment of ninety. The faculty is composed of B. M. Roberts, principal; Prindle Gaines, Mabel Wasson, Mrs. Charles Prather and Catherine M. Eskridge teachers, the latter in music and elocution.

The Paris colored schools, under the supervision of Prof. F. M. Wood, had a very auspicious opening with a total enrollment of 270 pupils. The Western High School had an enrollment of forty pupils. Eleven teachers are employed.

An Ordinance

AUTHORIZING, EMPOWERING AND DIRECTING THE MAYOR AND PROPER OFFICERS OF THE CITY OF PARIS, KY., ON BEHALF OF SAID CITY TO ENTER INTO AND EXECUTE A CONTRACT WITH W. H. WEISS, AND PROVIDING FOR THE CARRYING OUT OF THE TERMS AND CONDITIONS OF SAID CONTRACT.

Be It Ordained By The Board Of Council Of The City Of Paris, Ky.: SECTION 1. That the Mayor and the proper officers of the City of Paris, Ky., for and on behalf of said City be, and they hereby are authorized, empowered and directed to enter into and execute a contract with W. H. Weiss in words and figures, as follows, to wit:

Paris, Kentucky.
Sept. 17, 1918.

W. H. Weiss,
Consulting Engineer,
Kansas City, Missouri.

Dear Sir: The Board of Council of the City of Paris, Ky., which City is hereby after referred to as the City, is advised that it has for some years past, contrary to law, paid to the Paris Gas & Electric Company, Inc., for street lighting, sums of money largely in excess of the reasonable value of said service, and that it is the duty of the Board of Council to protect the taxpayers and therefore, to seek to recover any and all monies heretofore paid said Company contrary to law. The Board of Council has, therefore, decided to and will promptly and diligently prosecute all claims and demands against said Company on that account to a conclusion. Inasmuch as expert services are necessary to the City in the prosecution of said claims or demands, the City desires and hereby requests you to serve the City as its expert and to assist it in every reasonable manner in the prosecution of said claims or demands.

In consideration of your acceptance in writing of this proposition and your agreement to undertake said work or services and to perform the same, the City hereby agrees, binds and obligates itself to pay you as your compensation therefor, a sum equal to forty (40) per cent of any sums of money or its equivalent, that the City may in any manner or by any means recover, receive or obtain from said Company. And the City will promptly institute and diligently prosecute any and all proceedings and take all steps and means within its power expedient and necessary to recover what may be lawfully due the City.

The City does not hereby delegate or intend to delegate to you any of its duties and powers, but the City expressly retains and remains supreme in any and all of its duties and powers.

In Duplicate.
CITY OF PARIS, KY.,
By E. B. JANUARY,
Mayor.

Attest:
GEO. L. DOYLE,
Clerk pro tem.

Acceptance And Agreement
I hereby accept the above and foregoing proposition and agree to undertake the work and to perform the services stipulated therein, for the purposes and considerations therein expressed.

W. H. WEISS,
Kansas City, Mo.

SECTION 2. That the Mayor and proper officers of the City of Paris, Ky., be, and they hereby are authorized, empowered and directed to take all steps and to do all things which may be necessary or proper to carry out the terms and conditions of said contract.

SECTION 3. That this Ordinance shall take effect from and after its passage and publication as provided by law.

LETTER TELLS OF DEATH OF DR. C. D. CRAM.

THE NEWS made announcement some weeks ago of the death in a California hospital of Dr. Charles D. Cram, at one time a resident and popular physician of this city. Dr. Cram had a host of friends here. Knowing this Dr. M. H. Dailey wrote to Dr. George H. Voss, of Lakeport, Calif., where Dr. Cram died, asking for particulars. The reply was, in part, as follows:

"Lakeport, California, Sept. 13.
"Dear Dr. Dailey:
"In answer to yours of the 4th inst., I assure you that the death of Dr. Chas. D. Cram is quite a loss to his many friends and myself, and to this community, where he was successful in his practice and quite highly thought of. The Dr. had serious liver trouble last January, at which time he was operated on for gall stones, and with apparent relief. He was able to return to Lakeport, but had again to return to the Hospital. After three weeks in the Hospital at Ukiah he passed away without much suffering, except for extreme exhaustion.

"He was quite happy and contented with his work here, and his own statement was that he had found the place at last where he expected to spend the remainder of his life. He had many warm friends and enjoyed a very good practice. He was a liberal and kind-hearted man, and I presume for this reason he did not accumulate very much in the last few years, although he had everything he wished for, and his practice produced enough to make life enjoyable for him. I am sending you copies of the local papers, and I shall be glad to advance any further information if desired.

"Yours Very Truly,
"GEO. H. VOSS."

AMERICAN CITIZENS OF DRAFT AGE ALL SIGNED.

Complete returns from last Thursday's registration in 31 States and the District of Columbia, showing an enrollment of 7,651,252 men, as against the official estimate of 7,623,350, led Provost Marshal General Crowder to announce that it is very plain that practically every living man of the new registration ages came forward.

"There is no shortage between the number of men that exist, alive, and the number that registered," said General Crowder. "This is where we have scored a national triumph."

General Crowder pointed out that before the registration his office estimated on the basis of figures furnished by Actuarial and census experts that the registration would total 12,778,758 and that the returns so far received indicated that the actual registration would be at least 12,670,000.

With the returns from Perry county in, the total registration of men in Kentucky between the ages of 18 and 45 is 272,000, which is 18,000 more than the estimate placed on the State. In a communication to local boards Major Henry Rhodes, Chief of the Selective Service Department, expressed the opinion that the local boards will handle the classification of men in the same manner as that exercised in the registration.

RED CROSS WORK AMONG THE COLORED PEOPLE.

An auxiliary of the Bourbon County Red Cross has been organized for work among the colored people of the city and county, and will take an active part in the approaching campaign for the floating of the Fourth Liberty Loan, and in all war activity work. The officers of the organization are: Mrs. B. L. Huttsell, chairman; Mrs. E. J. Martyn, vice-chairman; Mrs. F. M. Wood, secretary, and Mrs. M. E. Graves, treasurer.

THE GOOD SHIP "LIBERTY LOAN"

German submarines have taken tremendous toll of the allied ocean shipping during the last two years. Merchantman, armored cruiser or fishing smack, they have all looked alike to the Huns. Red Cross ships have been sent to the bottom; women and children have been shelled in lifeboats. With them nothing has been respected. All that came their way has been fair game; it has been open season ever on the high seas for every variety of craft.

But no German U-boat will be able to stay the progress of the good ship "Liberty Loan" lifeboat of the world's civilization.

Very shortly the "Liberty Loan" is to put forth once more. It will be a short voyage but a tremendously important one to the liberties of the world. It must be a triumphant one.

It must end with the bands playing and the colors flying proudly from the mast-head. No Spanish galleon of the olden days ever carried such a wealth of treasure as the good ship "Liberty Loan" must bring safely into port.

And all of us, for our honor, our country and our self-respect through the years to come, must take part in this greatest excursion the world has ever witnessed.

Get your badge of loyalty early. Get ready, folks, get aboard. You cannot afford to be left.

BOYS' PART IN WAR WORK CAMPAIGN.

In connection with President Wilson's letter to Raymond D. Fosdick, Chairman of the Commission on Training Camp Activities, urging that all American Army Welfare Agencies recognized in Europe by the War Department, combine in their next appeal for funds, the following statement has been issued by John R. Mott, General Secretary of the National War Work Council of the Y. M. C. A.:

"The President has raised a standard to which every man and woman in the nation can and will rally royally. This is not to be a Y. M. C. A. Campaign nor a Salvation Army Campaign. It is to be a campaign for the men 'over there' in France and in the cantonments on this side and on our great ships everywhere, a campaign for the maintenance and increase of morale which, Napoleon said, is to other factors in war as three to one. The dollars given to the common fund will reach the boys through seven different channels, but every dollar will be made to do a maximum work and no matter what sign is painted over the door of any hut and any hostess house, its door will be open to every boy equally."

"The total amount, \$170,500,000 is tremendous, the largest single gift for which any people has ever been asked at one time, yet compared with the figures to which the war has accustomed us, it is not much. A recent letter from one of General Pershing's staff officers, made the statement that the work of these great agents is adding at least 10 per cent to the efficiency of our men. If it is worth \$18,000,000,000.00 to keep our boys under arms next year, surely it is worth \$170,500,000 to make them fight 10 per cent more efficiently. Nothing in my five visits on the battlefield has impressed me more than the way in which the men of all religious bodies have blended their sacrifices even until death for a supreme cause.

"This great campaign will give us a chance to show that the men and women at home are capable of raising to the same heights of splendid co-operation as their representatives over there. If they can struggle and die together, to make forever secure our liberties, we can plan and work together to get the money needed to serve them."

The United War Work Campaign will begin Nov. 11, and continue until Nov. 18, inclusive. Coming as it will after the largest Liberty Loan in the war it is expected by those having the campaign in charge that a very large percentage of contributions will be in the form of Liberty Bonds. A \$50.00 bond will carry the work of all seven organizations forward for one soldier. A popular slogan of the campaign will be "Back Your Boy With a Bond."

John D. Rockefeller, Jr., will be Chairman of the Campaign in greater New York, and prominent men will direct campaigns in other leading cities.

TATTERSALLS HAVE GOOD SALE AT LEXINGTON.

The total sum of \$19,695 was paid for 75 yearlings at the annual September auction at Tattersalls held by the Kentucky Sales Company, Tuesday night. George Bain was in charge of the auctioneering. It was the unanimous opinion of the horsemen who attended the sale that the horses brought good money.

The top of the sale was the sister to Westy Hogan, she going to B. J. Brannon, of Kansas City, for \$2,500. The next highest was a Rapid Water colt out of Sindingham Belle for \$2,200 and he went to J. C. Milam, a good chooser. J. D. Offutt paid \$2,000 for a half brother to five winners and A. B. Hancock, of Paris, got the half sister to Cock 'o the Walk, etc., for \$2,000.

A colt by Robert Kay, one of Madam Junet, donated by T. F. and G. H. Clay to the Kentucky Association Red Cross Committee, was sold at auction, and the sum total applied to the \$40,000 being raised by the thoroughbred breeders of the State as their contribution to the \$300,000 fund to be raised in the U. S. by the racing interests for the Red Cross fund.

TAKE OURS FOR PATTERN

The Winchester Democrat some time ago expressed unqualified approval of our Community Chorus, and suggested that Winchester should have a similar organization. Now the Democrat wants a drum and bugle corps. They should inspect our Liberty Drum and Bugle Corps on parade some day, with chief promotor and grand marshal Roxie Davis in the lead. The Democrat says: "Public spirited citizens are at work trying to organize a drum corps for Winchester. A band will finally be organized if the drum corps proves successful. There is no reason why Winchester cannot finance a band. One is badly needed here, and there is much talent if it could be developed. Let us all boost the movement."

A wagonload of wine contributed by King George V. to the Red Cross sold at auction for \$8,500.

REAL ESTATE DEALS AND LAND SALES.

Mr. John Eldridge sold at public auction Monday on the premises near Centerville all his live stock, farming implements, kitchen and household furniture, etc., all bringing good prices. Mr. Eldridge, who is in ill health, will, with his family, move to Colorado to reside.

Mr. and Mrs. Carl L. Long have leased the frame bungalow of Miss Lucy Simms, on Mt. Alry avenue, lately occupied by Mrs. H. C. Buckner, and will move there to reside. Mr. Long some time ago purchased the farms of Sam Houston and Calvin Jones, near Jacksonville.

Harris & Speakes, of Paris, sold at public auction for Bart W. Wilson, his farm of twenty-seven acres near Moorefield, in Nicholas county to Vice & Biddle, of Carlisle, for \$260 per acre.

Through the Paris Realty Co., Mr. J. R. Johnson, of Paris, purchased a house and lot on South Clifton avenue, belonging to Mr. Richard Stuart, at a private price. Mr. and Mrs. Johnson will occupy the property October 1.

One of the largest land deals in Central Kentucky in recent years was made at Lexington, when the famous bluegrass farm known as the Solomon VanMeter place, near Lexington, was sold at public auction for a grand total of \$264,487.48. The farm was divided into four tracts, which sold as follows: Tract No. 1, of 138.88 acres, sold to R. O. Chambers, of Carlisle, for \$66,037.44; Tract No. 2, of 64.72 acres, sold to Harp, Milburn & McIntyre, of Lexington, for \$25,952.72; Tract No. 3, of 196.47 acres, was purchased by Florence, Wilson & South, of Fayette county, for \$60,905.75; Tract No. 4 sold for \$290 an acre to Reed & Henry; Tract No. 5, of 119.14 acres, was sold to S. S. Jones, for \$300 an acre; McLoney & Ammerman bought Tract No. 6, of 126.95 acres, for \$36,708.32.

B-4 FIRE INSURE WITH W. O. HINTON & SON, AGTS

TEN LIVES LOST IN BUTTON FACTORY FIRE.

Trapped in a cloak room on the top floor, eight girls, a boy and a man perished in a fire which destroyed the plant of the American Button Company, at Newark, New Jersey, Tuesday afternoon. Another girl was killed when, seeking to escape from the flames, she leaped from a window. Nine other girls were injured, several probably fatally. At 2 o'clock the factory hummed with the industry of more than three hundred girls engaged in making buttons for army and navy uniforms. At 3:30 the building was a flame-swept ruin, the top floor of which formed a tomb for workers who had been driven into the cloak room by flames and smoke. At 4:30 the fire was virtually extinguished and the task of identifying victims begun.

The fire started in the cans of lacquer on the second floor, according to Superintendent Frederick W. Goerdes, who said that an explosion resulted when a defective insulated electric wire came in contact with one of the cans.

CYNTHIANA MAN INJURED IN AUTO ACCIDENT.

Newell Fisher Jenkins, aged thirty, of Cynthiana, suffered a broken back Tuesday morning when the steering gear of the machine in which he was riding on the Cynthiana pike, near Paris, broke, causing the machine to run over an embankment at the side of the road. The accident happened near the bridge over Cooper's Run, near Paris.

Jenkins, with three other young men from Cynthiana, were en route to Lexington, in their machine, for the purpose of presenting an appeal to the Medical Advisory Board in regard to their being rejected for army service. Jenkins was driving the machine, and when at a point near the bridge, the steering gear broke or became entangled in such a way as to cause him to lose control of the machine, which turned over. Jenkins was caught under the car, while his companions were thrown clear of the wreck. One of the boys sustained a gash in one hand, but the others were uninjured.

Jenkins was removed to the Massie Memorial Hospital, in this city, where it was found after an examination, that his back had been broken, and that his skull was fractured. Jenkins has a wife and two children, who were summoned to his bedside. An operation was performed at the Hospital by the physicians in charge in the hope of saving his life.

HELD TO GRAND JURY.

James Humphries, a farmer living near Muir, close to the Bourbon and Fayette county line, was presented in Judge Batterton's court on a charge of vagrancy, the warrant having been sworn out by his father-in-law, W. R. Barnes. The latter also swore out a warrant against Humphries on a charge of carrying concealed weapons.

Humphries waived examination to the charge of carrying concealed weapons, and was admitted to bail in the sum of \$100. Judge Batterton holding him to await the action of the grand jury at the next term of the Bourbon Circuit Court. Humphries was represented by Attorney John J. Williams, while County Attorney D. D. Cline conducted the prosecution.

TOBACCO CUTTERS WORK SUNDAYS TO SAVE CROPS

Farmers are very busy cutting and housing a fine crop of tobacco. The late rains have made a great outcome in the crop, and growers are having trouble in getting help to handle the weed. The cool weather with threatened frost hastened their efforts to get their crops safely under proper shelter.

All kinds of prices are being offered for farm labor since the last call from the county of a large number of boys from the farms. In some sections of the county the work of saving the crops was pushed with all available help during the past two Sundays.

The 1918 crop is pronounced by experts to be of an unusually good quality and should bring very good prices when the local market opens up for business.

High School graduates of Bourbon
county will be given an opportunity
to become school teachers. To-day
and to-morrow, State examinations
for white teachers will be held in the
office of County Superintendent of
Schools J. B. Caywood.
There are a number of vacancies
in the public schools of the county
and those who pass the examination
can put in their applications before
the Board of Education, which will
meet to-morrow afternoon in the
office of the County Superintendent in
the court house.

**MASS MEETING AT COURT HOUSE
THURSDAY.**

A public mass meeting will be held
at the court house on next Thursday
night at 7:30 o'clock for the purpose
of perfecting arrangements for the
coming Fourth Liberty Loan drive in
Bourbon county.

At this meeting plans and sugges-
tions for featuring the campaign in
the city and county will be proposed
and discussed and the most feasible
ones adopted. It is aimed to give
Bourbon county a rousing start in
the campaign, that her record in
other recent ones may be kept up.

Local speakers of ability will be
present and address the audience.
The general public is urged to attend
this mass meeting, and by their pres-
ence lend encouragement to those
who will have the initial work of the
campaign in hand. All the com-
mittees must be on hand at this meet-
ing.

**REDEEM W. S. S. PLEDGES AT
THE POSTOFFICE**

Postmaster J. Walter Payne said
yesterday that those persons in the
city and county who had received
notice from the chairman of the War
Savings Stamp campaign, notifying
them that their pledges to buy War
Savings Stamps had not been fulfilled,
should call at the postoffice and have
their purchases marked on the cards
on file there if they had bought
stamps elsewhere.

During the War Savings Stamp
drive in this city and county many
people pledged to buy their stamps
at the Paris postoffice, and have since
made many purchases at drug stores,
banks and other places. Their origi-
nal pledge cards, however, are filed
with the postmaster, and much con-
fusion and annoyance has resulted
because the cards there do not show
records of purchases made elsewhere.
Postmaster Payne or his assistants
will be glad to bring the entries on
the cards up to date.

**SUPERINTENDENT EXPRESSES
APPROVAL**

"I am greatly gratified at the pa-
triotic response of the people of Paris
generally to the request of the Pres-
ident of the United States to see that
their children are kept in school,"
said Superintendent of Schools Lee
Kirkpatrick.

"Our attendance for the past week
has been one of the largest for the
opening weeks of any school year for
many years," he continued. "This I
attribute to the universal willing-
ness of every parent, rich or poor, to
do what the President says is neces-
sary to be done in order to win the
war."

"Even old offenders, parents who
have been careless for years about
the attendance of their children, are
in line, and their little ones are in
school and ready for work along with
those who I understand from my pre-
decessors have never given any
trouble about their attendance."

"We are not expecting the Truant
Officer to have much to do. The poor
are appreciating as never before the
benefits of education, and boys who
left the High School last year now
see the mistake they made in failing
to complete their education, and have
returned to us this term. It shows
the proper spirit all around, and
taken all in all, the outlook for a
successful school year for the Paris
schools is a very bright one, indeed.
Speaking modestly, I will say for the
members of the faculty and myself,
that we will leave nothing undone
that will tend to improve the Paris
High School, and to make it as near
perfect as men, women and modern
methods can do."

**STREET IMPROVEMENT WILL
NECESSITATE REMOVING
TREES.**

A large number of ornamental
shade trees on various streets in
the city are doomed to give way to
the march of progress and the im-
provement of streets. Already a large
number have been cut down on Dun-
can avenue, and others on the Vine
street side of the city are marked for
removal, some of them having
already fallen before the axe.

In order to widen the street at that
point the trees on Vine street from
Duncan avenue to the foot of Vine,
near the present home of Dr. Martha
Petree, have been removed, and oth-
ers will soon go. This is made nec-
essary by street repairs and to get
more room for curbing. Trees that
have been pushing their roots
through the pavements at different
points in the city will also have to
be removed. "Woodman, spare that
tree," will be of no avail when the
improvements have to be made.

MAYOR JANUARY'S VIEWS ON THE ELECTRIC LIGHT RATE CONTROVERSY.

The following communication from Mayor January has been given out for publication. The article sets forth the Mayor's views in regard to the controversy between the city of Paris and the Paris Gas & Electric Company as to the rates charged by the latter concern:

That the electric light and power rates charged by the Paris Gas & Electric Company to the City and the people of Paris are and have been for years palpably unjust and unreasonable; that the Company has conducted its affairs in an arbitrary manner in utter disregard of its duties and obligations are common knowledge. It is the duty of this Company under its franchise to furnish adequate and reliable electric service at reasonable and just charges to the City of Paris for lighting its streets and to the people for lighting and power. The franchise permits it to charge a maximum rate of 12 cents per kilowatt hour of electricity, but that does not mean that it may charge more than the service is worth. The worth of the service is what it costs to produce that service included in which cost is the profit, namely, a fair return on the fair value of the property used for the convenience of the public and an amount sufficient to replace that property as and when it wears out in the service or becomes inadequate or new inventions make it inefficient. The same rule applies to the worth of the street lighting; however, no price for street lighting was provided in the franchise.

Aside from the fact that the highest rate of electricity for lighting and power is charged by electric light companies in many other four class cities of Kentucky was and now is 10 cents per Kwh, and as low as 3 cents per Kwh, with even lower rates for power, I have always held the opinion that the Paris Gas & Electric Company charged the people of Paris for light and power and to the City for street lighting prices that were outrageously and grossly in excess of the worth of the service, and I was determined, if ever I got the opportunity, to get relief for the people, either from the Company or by advocating a City-owned electric light and power plant managed and operated in the same manner and along the same lines of a privately owned plant.

It so happened that shortly after I assumed the office of Mayor the contract made in 1915 for lighting the streets, and which attempted to make a contract for three years (then supposed to be a valid contract, since which time, however, we have learned that it was void) was about to expire, and following the established custom, we advertised for proposals of bids for street lighting. But being satisfied that the nature and methods of the Company would not permit it to restrain its appetite for unjust and unreasonable rates, and inasmuch as the Company are experts, I felt that in dealing with it the City would be at a great disadvantage unless it had the advice and assistance of an expert. Accordingly I corresponded with an Engineer who had made the valuation of the Paris Water Company and who knew something of the electric light situation here, and invited him to visit us to discuss the problem. On this visit he declined to express himself as to the rates and charges which he could study the situation which he was willing to do for the City at a certain rate per day. He very frankly told us that this Company was apt to adopt dilatory tactics to hinder and delay his work, and that such services as he proposed to render to the City and which were essential to the successful issue thereof, required the cordial co-operation of the Company, and that unless such co-operation was had the amount of his fee at so much per day would increase so rapidly that the City might become disgusted and throw up the job. And for that reason he declined to take the employment at a fixed price for the work. However, he made us a proposition that he would take as his fee a certain percentage of the saving and benefit that the City and its inhabitants would receive as the result of his work, meaning that if we got no reduction he would not be paid anything. We considered that a very fair proposition and made the contract on that basis. As everybody knows, Mr. Weiss' predictions as to the Company's tactics came true.

At the same meeting that approved the contract with Mr. Weiss, the Company submitted a bid for street lighting at \$77.50 for the 400 cp and \$26.00 for the 80 cp lamp per year—an advance over the former prices of an average of 15 per cent. Action thereon was deferred until we could submit the bid to our expert, who promptly informed us that the prices were exorbitant. He thereupon requested certain information from the Company, which, with the exception of ascertaining the quantity of the wire, price of lamp fixtures, and size of station equipment devoted to street lighting, was refused. As a result of his independent studies, he rendered a report on March 28, showing the worth of the service of the entire street lighting to be \$4,500 a year, instead of \$9,081 as proposed by the bid last submitted, or instead of \$8,000 a year as theretofore paid under the void contract aforesaid. The Board of Council adopted the report of its Engineer and voted not to pay the Company on account of said street lighting service more than \$375 a month, which has since been done monthly. Mr. Weiss then took up the question of the light and power rates to the people, but again information was refused by the Company, assigning as the chief reason for such refusal that its business was private and that so long as it did not charge more than the rates fixed in the franchise the City was not concerned therein; also on the silly statement that because of the contingent fee to be paid our Engineer, he could not be fair to the Company, and it went so far as to attack Mr. Weiss' standing in his profession by paid advertisements in the newspapers, doubtless hoping thereby to discredit and possibly eliminate him from the service of the City. But these unfair methods proved unavailing and tended only to convince the City that it was on the right track.

To show its defiance of the City's efforts to protect the people and following its policy to get all that the

"traffic will bear," the Company advanced its rates to private consumers from 5 to 20 per cent and also advanced the minimum charge on motors in many cases from 50 to 100 per cent and threatened to discontinue the service of all those who failed to obey its edict, going so far as to cut off the service from the City Building because we refused to pay a minimum charge of \$20 for city rock crusher a month against a charge of \$2 a month, which was all that they had charged or collected for that service for years prior thereto. The City promptly appealed to the courts and the Company was required to restore the service. Further, it defied the resolution of the Board of Council requesting information as to its property and business in order that the Board might be informed as to the reasonableness of charges to the people. Thereupon our expert again made independent studies and based upon his report, fixed and determined certain rates and charges to be reasonable to the people and to the Company alike. These rates were submitted to the Company, and it was requested to put them in force by a given date, or, if it desired to be heard in opposition thereto it was notified that the opportunity would be given it, under conditions, however, that whatever rates might be so fixed or agreed upon finally should accrue to the people as of a definite date, so that the people would be protected against any further delays caused by the Company. In a conference on the matter the Company sought to induce the City to postpone the enactment of the rate ordinance to an uncertain date, declining however to enter into the agreement to observe said rates or any others that might be agreed upon as of a date fixed. Accordingly the ordinance was enacted and put into effect, but owing to the fact that the Company went into the courts and enjoined the enforcement of the ordinance, the people have thus far been denied the benefit of said reduced rates. The City hopes to have the case heard on its merits at the November term of the court. Our expert now advises us that the rates fixed in said ordinance are considerably more than the reasonable worth of the service and that at said rates the Company can still earn a sum largely in excess of a fair return—reasonable profit—on the fair value of its electric property. We have reason to share his views and shall be governed accordingly.

Void Contracts.

In prosecuting his studies, our expert had to examine the City records, and this enabled him to discover that in December 1912 the City attempted to make a contract with the Company for two years and in 1915 attempted to make a contract for three years for the electric street lighting, without submitting the contract to the vote of the people, as is required by the supreme law of the Commonwealth. Under said contract, had the City refused to pay the lighting bills the Company could not have collected one dollar thereof at law. See Sec. 157 Ky. Constitution. However, since the City did pay these unjust and unreasonable charges for street lighting, it nevertheless has a claim against the Company for all sums in excess of the reasonable value of said services for the five years next preceding the date of the institution of a suit therefor in equity. Worrell Mfg. Co. v. Ashland, 159 Ky. 656 and cases there cited; see also 94 American State reports 424 and notes.

The City feels confident that it will be able to prove that the value or worth of the street lighting service furnished by the Paris Gas & Electric Company during said five years does not exceed \$4,500 a year, and inasmuch as it has paid an average of \$7,500 a year therefor, its claim for reparation will amount to approximately \$15,000 plus interest. As the agents of the people and in protection of the taxpayers' money it is the duty of the Board to seek to recover all monies unlawfully paid for said service, and accordingly the Board has directed the City Attorney to file suit to the next term of the court.

At the request of the Company, Messrs. Kiser, Merringer and Veatch composing the Light Committee, myself, Judge Dundon, and Mr. Weiss, representing the City, had a conference with the officials of the Company on September 10, but no inclination was shown by it to deal frankly and openly with the City on the matters at issue, its chief aim seemingly being to camouflage the City and to try to get away from making reparation under said void contract by offering a slight concession in rates and charges for street lighting and to private consumers. This opinion was confirmed by the offer it made last Friday of which you have already given an account.

The City has no disposition to deal other than fairly with the Company but to do so it must have the facts which are in possession of the Company with respect to its investment, its revenues and expenses as a basis for determining what are fair rates and charges to the people, the City and the Company. Of course, the Company knows that upon these facts, rates determined according to the practice of rate regulatory commissions and principles laid down by the United States Supreme Court in rate cases—and that is what we shall demand—except that we are willing the Company shall earn a fair return, that is, a rate more than the courts would declare non-confiscatory, its present rates and charges would be materially reduced. But it has no right to exact or demand more than a reasonable compensation for its services, and that, as we have said, we are perfectly willing it should have. The Board of Council and myself are in agreement on the question of lawsuits. We did not invite them, on the contrary we did everything in our power to avoid litigation, while the Company apparently sought it. The Vice President of the Company at said conference made the statement that it would take years to settle the litigation.

City Owned Electric Light and Power Plant.

But the people of Paris have the remedy in their own hands and can apply it. If the Company refuses to make reasonable rates and expects through litigation to avoid its obligations or to put the City to much trouble and expense in enforcing its

just rights, it should not be permitted to continue the monopoly of the business and to that end the City should go into the electric light and power business on its own account. With this in view I have had our engineer prepare an estimate showing what such a plant would cost at present prices and what it would cost to operate. I have reason to believe that all of his estimates are conservative and that in actual experience the results would be better than the estimate. I am able, therefore, to say that the City can build, own and operate such a plant with 1,000 meters and sell electricity for lighting at an average rate of 6 1/2 cents per Kwh and at a considerably less rate for power, pay for the street lighting at least 40 per cent less than the Company has last proposed, pay interest on the investment, pay off \$3,000 of the bonds each year, and set aside \$3,000 each year as a fund for depreciation, of which fund a very small sum would have to be expended the first ten years because the plant would be entirely new, so that at the end of twelve years we would have our plant entirely paid for. And this does not take into account the sure increase of business to follow reasonable rates. The Paris Gas & Electric Company reported to the State Auditor that its earnings for the year ended June 30, 1917, were \$70,569 gross. In the expenses of operation an experienced and competent manager is to be paid \$2,000 a year and all other expenses are equally estimated. It would be my plan to put the management of the plant in the hands of a self-perpetuating board of electric light commissioners consisting of three or more public spirited citizens to be selected by the people, which board would fill any vacancies caused by death or resignation. This plan is in successful operation by the City of Louisville in its waterworks and would insure undoubted success in Paris.

I have several copies of the detailed estimate of the cost of said plant and will be glad to have any citizen to read it. And I also invite an expression of the public on this matter. For years we have paid more than the reasonable worth of the service. It is time we got relief, if not from the Company, which seems unlikely then we should help ourselves as suggested. The Mayor and the Board of Council represent the people, who in the final analysis are the City, and we want to do always our best for the people.

Natural Gas Service.

The franchise of the Company stipulates that it shall furnish gas at "standard pressure." This means a minimum of 4 ounces to the square inch at prices fixed by the franchise, and this in turn means that unless the Company furnishes that pressure at all times it may not charge or demand the price fixed by the franchise. I intend to recommend to the Board of Council to purchase and install in the City Hall a graphic recording gas gage which will show the pressure furnished at all hours of the day and night continuously. If in any month the pressures are less than 4 ounces, the rate of charge must be correspondingly reduced. We will have the computations made and published monthly for the information of the gas consumers, and such action by them as the facts warrant.

Respectfully,
E. B. JANUARY,
Mayor.

GOLD DOLLARS FOR 85 CENTS

(St. Louis Republic.)

Gold dollars are selling at 85 cents this month. They are real dollars, issued and stamped by Uncle Sam—the best money on earth—and all the purchaser has to do in order to realize the 15 per cent. increase in value is to put them away for a few years. Meanwhile the 85 cents will be helping to win the war, thereby adding to its own security and the value of all other property in the United States.

It used to be said that some men were so cautious they would not "buy gold dollars at 90 cents." Even the most conservative was never accused of turning down an opportunity to buy them at 85 cents.

DIARRHOEA IN CHILDREN.

For diarrhoea in children one year old or older you will find nothing better than Chamberlain's Colic and Diarrhoea Remedy, followed by a dose of castor oil. It should be kept hand and given as soon as the first unnatural looseness of the bowels appears.

COMPLETE RETURNS OF REGISTRATION SEPT. 12.

WASHINGTON, Sept. 19.—Complete returns from the registration. Thursday, Sept. 12, in sixteen States and the District of Columbia of men between the ages of 18 and 45 years were received Monday by Provost Marshal General Crowder.

They showed a total of 3,238,629 men against the estimate of 3,232,267 and it was announced officially that they do not justify the assumption that the returns from the entire country will show an enrollment very greatly in excess of the estimate of 13,000,000.

In six of the States the total registration fell below the estimates, but in ten of them it exceeded it. The District of Columbia registered 22 per cent. more than the number estimated for it, due, officials believe, to the influx of war workers. Of the States Vermont's percentage of excess enrollment was the highest, being 12 1/2.

Registration totals by States, together with the estimates as announced Monday by the Provost Marshal General, are as follows:

States	Registration	Estimate
Arkansas	187,122	198,746
Connecticut	197,426	213,329
Delaware	30,033	29,489
Disct of Columbia	52,751	43,152
Florida	111,058	110,940
Indiana	350,852	340,920
Iowa	280,303	287,847
Maryland	177,098	162,090
Massachusetts	475,019	483,646
Mississippi	185,105	185,715
New Hampshire	52,618	50,013
New Jersey	425,136	405,509
Oklahoma	238,148	227,884
Rhode Island	73,503	71,431
Utah	52,709	58,863
Vermont	40,887	36,316
Wisconsin	308,861	326,377

Complete returns from the more populous sections of the country have not yet been received, but estimates made on the basis of partial totals from those sections indicate that these will not reach the estimate. Officials do not believe any appreciable number of men evaded registration. They ascribe the fluctuations of the actual totals as compared with the estimates to industrial conditions brought about by the war, which have affected the distribution of the male population.

DEMOCRATIC STATE CAMPAIGN TO OPEN SEPT. 21.

That Kentucky must not falter at this crucial hour, but send a man to the United States Senate in the place of the lamented James who can at all times be depended upon to uphold the hands of the President in winning the war, will be the message which Senator J. C. W. Beckham and Governor A. O. Stanley will take to the voters of the First Congressional district when the campaign is formally opened at Mayfield, Graves county, next Saturday, September 21.

The opening of the fight at Mayfield bids fair to have the aspects of an old-time Democratic love-feast, and hardly a more auspicious setting could be found for such an occasion than the capital of Graves, the banner Democratic county of the State. The realization by all Democrats and many other patriots of the necessity of sending back a Democrat to Washington from Kentucky at such an hour, will hardly be greater than the pleasure at such a time of beholding those two champions of Democracy—Senator Beckham and Governor Stanley—speaking from the same platform, all past differences buried, thus typifying so remarkably the great seal of the old commonwealth and its motto, "United We Stand, Divided We Fall." For it is felt by everyone that united as they and their friends are to-day, the old ship of Democracy stands upon a firmer footing in Kentucky than at any time within a decade, and with two such champions, nothing short of a most decisive victory is possible when election rolls around.

Only two speeches will be made by the two leaders at this immediate time. After the opening addresses at Mayfield, both will go to Winchester, Clark county, and speak there on Monday, the 23. After that politics will be tabooed during the fourth Liberty Loan campaign, and Democratic speakers will do their duty like patriots on the stump for the cause of their country up until the loan drive ends on October 19th.

Scattered all over the country are great camps where officers are being trained, recruits whipped into fighting shape, aviators and artillerymen schooled in their special arts, and non-combatant forces instructed.

Along the coasts and on the lakes the forces of the Navy are just as busy, preparing to throw the nation's full strength against the foe.

In the foreground of all this activity is the Bell Telephone, linking even the farthest outposts with headquarters and bringing all under direct central control. Thousands of miles of new lines have been constructed, hundreds of switchboards installed, and unheard-of volumes of traffic, both from government and private sources, are being handled.

While it is now practically impossible to secure the badly needed additional equipment to take care of the abnormal increase in telephone calls, our engineers are applying all the remedies known to science and are adopting every means at their command to equalize the load on each switchboard so that no particular subscriber will suffer serious inconvenience.

We appreciate the problem before us and realize the service will probably be slowed down during the coming months. We want you also to understand the situation and to know that the operators are serving you cheerfully and to the extent of their ability under difficulties for which there is no immediate remedy.

HAIL DOES DAMAGE IN CENTRAL KENTUCKY.

LEXINGTON, KY., Sept. 17.—A hail and electric storm in the neighborhood of the Athens precinct, Monday night probably destroyed fifty thousand dollars worth of tobacco and corn.

On the farm of Mrs. J. J. Gibson, about fifteen acres of what was regarded as one of the finest crops of tobacco in Central Kentucky was ruined, the balance of the crop of nineteen acres being housed.

On the farm of Charles Gentry, twenty-five acres of tobacco met with the same fate, being practically cut to pieces.

The crop of Sharp & Gentry of seven acres was destroyed and in the immediate neighborhood the corn was stripped of fodder, leaving it in such condition that the water will ruin the ears.

In the tobacco crop of Mrs. Gibson, some fifteen acres, the loss will reach a figure close to \$8,000, she said, while the other tobacco growers will lose in proportion.

The storm lasted about fifteen minutes, covering practically the whole of the Athens community, making a loss in the neighborhood of tobacco and corn of a value of over \$50,000.

CHAMBERLAIN'S COUGH REMEDY.

This is not only one of the best and most efficient medicines for coughs, colds, croup and whooping cough, but is also pleasant to take, which is important when a medicine must be given to young children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their unqualified endorsement. Wm. Scruby, Chillicothe, Mo., writes: "I have raised three children, have always used Chamberlain's Cough Remedy and found it to be the best for coughs, colds and croup. It is pleasant to take. Both adults and children like it. My wife and I have always felt safe from croup with it in the house." Chamberlain's Cough Remedy contains no opium or other narcotic.

—Miss Martha Smith is a guest this week of friends in Georgetown.

—Miss Alberta Moffatt is the guest of her cousin, Miss Charline Ball, of Paris.

—Miss Elizabeth Palmer, of Helena, is the guest of her sister, Mrs. Adron Chanslor.

—Mrs. C. E. Rhodes, of Flemingsburg, was the guest of Mrs. Adron Chanslor, Wednesday.

—Mr. Carl Boyd, of Mt. Sterling, has arrived here to enter the Millersburg Military Institute.

—Miss Nannie Clark, of this city, has begun her work as School Supervisor for Bourbon county.

—Mrs. J. A. Miller left Thursday for a week's visit to her sister, Mrs. Alice Best and family at Maysville.

—Mr. and Mrs. C. W. Howard, of Lexington, were guests of their sisters, the Misses McIntyre, Monday and Tuesday.

—Miss Stella Stirman has returned to Paris after an extended visit to her aunts, Mrs. S. H. Endicott and Mrs. M. D. Hurst.

—Mrs. Bessie Caldwell has returned after a two-weeks' sojourn at Carlsbad Springs and is now with her sister, Mrs. Anna Barnes.

—Mrs. DeBell Chanslor and daughter, Mrs. J. W. Williams, of Stanford, were guests of Mrs. M. E. Pruitt from Saturday until Monday.

—Mrs. W. A. Butler and son, William Miller Butler, will leave today for a two-weeks' visit to their aunt, Miss Julia Howe, at Covington.

—Mr. and Mrs. H. W. Conway, of Atlanta, Ga., who have been guests of Mr. and Mrs. C. W. Corrington for the past ten days, are now visiting relatives at Maysville.

—Mrs. E. B. Driscoll and little son, of Worthville, Ky., and Mrs. Louis S. Frederick, of Hattiesburg, Miss., are guests of their parents, Rev. and Mrs. J. D. Redd.

—M. M. I. opened Wednesday with a good attendance. About twenty cadets arrived Tuesday. Every train brought some in on Wednesday. Many came in automobiles. The school will be full to its utmost capacity, and some will be turned down.

—The Presbyterian parsonage, which has been undergoing some repairs, is now completed. Thursday afternoon the members of the congregation and a number of the citizens of the town sent in donations, almost filling the parsonage of the new pastor, Rev. W. W. Morton. This, of course, came in the nature of a pleasant surprise to both Rev. and Mrs. Morton.

—PUBLIC SALE. —Harris & Speakes will sell at Public Auction for Miss Nannie Louise Best on the premises, Saturday, September 28th, at 2:30 p. m., her 3 desirable pieces of property located on Main Street, in Millersburg, Ky. This property is centrally located and a splendid investment. Will be sold separately and then as a whole, best bid or bids accepted.

(6-10-13-17-20)

—Mr. H. S. Roache, Jr., who left September 1st to enter his second year at V. M. L., was called home Monday to take up work at M. M. I. Capt. Roache is thoroughly qualified for the duties assigned him, and his many friends congratulate him on being able to secure a place in the faculty of M. M. I. Harry is full of energy and determination to do what is right and we are sure he will make good.

—Cards have been received announcing the marriage of Miss Car-nella Bootsman to Mr. Chas. Miller, both of Kitchicot, Alberta Province, Canada. Mr. Miller is an old Millersburg boy, a son of Mrs. Elizabeth H. Miller, of this community. For the past several years he has been farming in Alberta Province, Canada, where he has made good in every respect. Some time ago he informed his mother that he had built a home on his farm, but said nothing of the bride that was to occupy it, until the

announcement cards were received. Miss Bootsman is a Canadian and is said to be very attractive and accomplished. Charlie's numerous Bourbon county friends extend congratulations.

DEATHS.

HANCOCK.

—Mrs. Harry H. Hancock left Tuesday for Cleveland, Tenn., in response to a telegram informing her of the sudden death there of her brother, Mr. Wm. Hancock.

Mr. Hancock was fifty-four years old, and was engaged in farming near Cleveland. He leaves a widow and one child.

ABNEY.

The funeral of Nettie, the three-months' old daughter of Mr. and Mrs. Wm. Abney, who died at the home of her parents, on the farm of Mr. Catesby Woodford, Jr., near Paris, Tuesday night, was held yesterday morning. Services were conducted at eleven o'clock at the grave in the Paris Cemetery.

The little child was found dead in bed when its parents woke early Wednesday morning, having evidently been smothered to death beneath the covers during the night.

JACOBY.

—Mr. James Jacoby, aged thirty-three, died at the home of his parents, Mr. and Mrs. J. W. Jacoby, near Hutchison, yesterday afternoon, at two o'clock, after a long illness from stomach trouble. Mr. Jacoby had been, previous to his illness engaged in farming with his father.

He is survived, besides his parents, by one sister, Mrs. James Wilmott, and one brother, Mr. Will C. Jacoby.

The funeral will be held at the family residence near Hutchison, tomorrow afternoon at 2:30 o'clock, and the burial will follow in the Paris Cemetery.

SUMMERS.

—The funeral of Mr. Samuel Summers, aged sixty-two, who died at his home on South Main street, in this city, Monday, after a long illness, was held at the family residence at nine o'clock, Wednesday morning, with services conducted by Mr. A. L. Boatright. Following the services at the home the body was taken to Elizaville, in Fleming county, for burial, the funeral party preceding there in automobiles.

Mr. Summers had been in declining health for several months. Some time ago he suffered a stroke of paralysis, which was indirectly the cause of his death. He had for the past thirty years been in the employ of the Louisville & Nashville railroad in the bridge construction and water supervision departments. He was retired some months ago by the railroad company on a comfortable pension for his long and faithful service.

Mr. Summers was married twice, his second wife and her child, Mrs. Edward Spears, surviving. Two children by a former marriage also survive, Mr. Ed. Summers, of Paris, and Mrs. Alma Miller, of Wellington, Kansas.

RELIGIOUS.

—The Christian Endeavor Society of the Presbyterian church will meet Sunday evening at 8:45. The subject is, "Lessons From Bible Characters."

—Rev. W. E. Ellis, pastor of the Paris Christian church, is conducting a revival in the Christian church at Hopkinsville, Ky. During his absence his pulpit here will be supplied by Rev. J. Taylor Sharrard, of Paris.

—The greatest meat-eaters are the Austrians, who before the war consumed an average of more than seven pounds per head weekly.

MATRIMONIAL.

—County Clerk Pearce Paton issued a marriage license yesterday to Mr. Horace M. Bridges and Miss Ida Dee Ward, both of this county.

—A marriage license was issued Wednesday from the office of County Clerk Pearce Paton to Mr. Jos. E. Ashcraft and Miss Minnie L. Carr, both of the county.

CARR—ASHCRAFT

—Lexington was the scene of a surprise wedding Wednesday afternoon, in which the principals were from Paris, both well-known and popular young people.

For many years the beauty and piquant youthful charms of Miss Minnie L. Carr, daughter of Mr. and Mrs. Robert Carr, of this city, has brought her numerous admirers, but she remained heart-whole and fancy-free until fate in the person of Mr. Joseph E. Ashcraft, also of Paris, stepped across her path and cast the challenge which resulted in the linking of their lives for better or for worse in the future.

Accompanied by Mr. and Mrs. Jas. E. Chappell, of near Paris, the latter a sister of the groom, Mr. Ashcraft and Miss Carr, having secured license here, motored to Lexington, keeping their intention a secret, except to a very few intimate friends.

Cupid led the way to the residence of Rev. McIntyre, on Rand avenue, in Lexington, pastor of the Methodist church, where the ceremony was performed at six o'clock. After a short wedding tour the happy couple will return to Paris and go to housekeeping at the home of the groom.

Miss Carr was for years one of the Home Telephone Co.'s best operators, and for a time chief operator. After leaving the service of the company she was engaged in other business lines with Paris firms for some time. She is a young woman of decidedly attractive and winsome personality.

Mr. Ashcraft is connected with the Main Street Garage, on South Main street, and is a young man of whom his bride may well feel proud.

WHY OUR WORK IS GREATEST.

(St. Louis Times.)

There is no rivalry among the allies for claims of credit, but there is a tendency on the part of some statesmen to discuss the three great powers on equal terms. Recognizing England's wonderful work on sea and land, holding back no credit from France and Italy for their defensive and offensive programs, we still urge that the greatest work of the war has been done and will be done by America.

It was America that fed England and France when food was the first essential. It was America that furnished munitions legally at a critical moment, and it was America that sent the reserves when the allied reserves were failing.

But this is not the big thing; the real thing of the war is that we have sent a million and a half men across 3,000 miles of water and an average of half that distance over land. No other nation has done this. Our boys are fighting far from home. England's men are merely across the channel from "Blighty" and France is fighting on her own ground. When the war is over the big credit for winning it must come to America, where it belongs.

—Caywood & McClintock, of Paris, shipped recently to the Cincinnati markets a load of butcher cattle that cost from eight to twelve cents per pound; one load of hogs for which they paid 18½ cents per pound, and one carload of lambs that cost them from twelve to sixteen cents per pound.

The following sales to Bourbon county farmers were made recently by Reynolds Letton, of near Paris: Twenty yearling Southdown bucks at \$35 per head to James Hutsell, of Montgomery county; fifteen Southdown bucks to Charles Duff, of Mt. Sterling, at \$25 per head; twenty Southdown ewe lambs at \$20 per head and one yearling ram for \$25 to Jesse M. Alverson, of near Paris, and a bunch of 115-pound shoats to Jesse Mason, of near North Middletown, for twenty cents per pound.

FARMERS, TREAT YOUR SEED WHEAT FOR STINKING SMUT

The Government is especially urging all farmers planting wheat to treat their seed. The method is simple and inexpensive, costing only about two cents per acre.

It is advisable for all the seed wheat to be treated, from the fact that in a case where the infection is slight it is practically impossible to detect the presence of the smut.

In Kentucky the past year 273,000 bushels, or 3% of the wheat crop was destroyed by the stinking smut. Next year the wheat acreage will be greatly increased. If something isn't done more than likely a larger amount of wheat will be destroyed than last year. Treat your wheat—help yourself and Uncle Sam.

The U. S. Government, in co-operation with your State University recommends the following method:

(1) Spread seed on any tight floor.

(2) Make up solution using 1 pint of formaldehyde (formalin), to 40 gallons water.

(3) Have someone shovel grain over and sprinkle with solution, using common sprinkling can. Get grain damp enough to stick to hand, using ½ to ¾ gallon solution per bushel.

(4) Cover with cloth, sacks, etc., for 2 to 4 hours.

(5) Spread grain out to dry.

A good practice to treat seed one day and sow the next. Formaldehyde can be bought at any drug store.

Precautions:

(1) Make up solution just before treatment. Do not use solution which has been standing anytime.

(2) Do not leave covered after treating for more than 4 hours.

(3) Be careful not to reinfest treated grain by using dirty sacks, etc.

BUY 4TH LIBERTY BONDS

The increasing number of people who have hope for Russia should revive the courage of William Jennings Bryan.

This is war to rid public life the world over from all personages who want to call themselves "All High-est."

THAT OTHER ARMY.

Not only America but the world is singing the praise of the Yanks. They have had their baptism of fire and have nobly stood the test. They have vanquished the best of the crack Prussian division set to stay their advance. They have upheld every tradition of American arms and have thrown a chill of apprehension into the very heart of the German hordes. They are winning their crosses every day.

But there is another army of which no American is proud, nor ever can be.

That other army of non-buyers of Liberty Bonds.

In it are the slackers, the pacifists, the so-called conscientious objectors, the miserly dollar pinchers and the pro-Germans; the cringing, apologetic contemptibles of earth.

And there also to their shame are those others who are selfishly indifferent to the sacrifices being made for their protection, their safety, their continued existence in a land of peace and liberty. The smug, self-satisfied apostles of ease, content to let others serve.

This is the army that is fast getting beyond pardon.

Thank God you are not in it! And if you are, desert.

The British army spends half a million dollars a year for the paste with which to polish the brass buttons on the soldiers' uniforms.

If one were to leave it to the average enemy sympathizer, he probably would acknowledge that being sent to jail is preferable to being sent to Germany.
